Israel inland postage rates 1948 – 2021

By: Alon Cohen

Many collectors who are interested in the postal history of the State of Israel or collectors who are interested in understanding whether the stamp they see on the envelope are correct and appropriate for the period, need a tariff table arranged in chronological order.

For this purpose, I have compiled a table of tariffs for most of the inland postal services in Israel, their common ones and their weight limits.

Efforts were made to get the information to the table from tariffs and notices to the public that the post office issued, but due to the lack of some of them all the tariffs between the years: 01.05.1990 - 01.09.2002 (except from 1995) are taken from catalog: Bale - Israel concise stamp catalog 2010-2011. I would be happy to receive authoritative comments or corrections as well as rates from the above years in particular, or from all the years in general That supplement the existing deficiencies in the table, and I am grateful for that in advance.

Explanations of the table:

1. The "Printed Matter" postal service operated until April 20, 1975. In its place the "Nonstandard" postal service was put into service for a letter measuring over 120 X 235 millimeters or heavy mail.
 2. The rates for a regular inland letter and postcard in Israel and are the same from 19.01.1984 and therefore they have been consolidated from that date.
 3. From 1988, the express fee for express mail in Israel was ended and replaced by a full tariff that varied according to the distance to the destination, and they described in this table as:
 - (1) - Within city.
 - (2) - Within district.
 - (3) - Intercity.
 - (4) - Between regions.
- The rates in the Express Mail table from 1988 refer to items weighing up to 1 kg. There are also rates for heavier mail items which are not included.
4. "Doar24" was put into service in February 2005 but the first day of operation is unknown to me.
 5. As of November 1, 2007, the registration fee for registered mail in Israel was ended and a full tariff was introduced in its place.
 6. As of February 1, 2015, post office customers who possessed a stamping meter machine received a discounted rate to some postal services.

7. In 2017 and 2020, the Israeli court ruled to compensate the postal customers who use the "Doar24" postal service by reducing the delivery rate by NIS 1.20, the period of time in which the reduced rate was used was very short and unknown.

Special thanks:

Many thanks to Yosef Wallach and Genady Berman for the special help of providing a lot of information and tariffs, thanks to them the construction of this tariff table was made possible.

Israeli currency

1948	Mils	
1949 - 01.04.1960	Prutot (Pr.)	
01.04.1960 – 01.10.1980	100 Agorot = 1 Israeli Lira (1 IL.).	
01.10.1980 – 01.01.1986	100 Agorot = 1 Israeli Shekel (1 IS.).	1IS. = 10 IL.
01.01.1986 – Today	100 Agorot = 1 Israeli New Shekel (1 INS.).	
1000 IS. = 1 INS
